

Chief Quality Officer Network

2026 Programming Calendar

The CQO Network hosts **monthly virtual convenings** featuring member presentations and guest lectures from experts across the globe. The CQO Network has smaller virtual **sub-cohorts** that meet regularly around a particular quality/safety topic to share knowledge and advance thought leadership. Currently, the sub-cohorts are: 1) a CQO Playbook, 2) Quality Board Governance, and 3) AI and Quality.

All virtual programming is recorded and available on demand for your convenience. Continuing education credit through ACCME/ANCC is offered for select programs.

Members are invited to **in-person networking** opportunities at IHI's global Forums and in the United States at the IHI Leadership Alliance Spring Meeting in May.
